CORE CLASSES

Core Academic Classes (English, Math, History, Science)

You have the opportunity to select your core classes level (standard or honors). If you are selecting one, some, or all honors level classes please read the description below to understand what is expected of you as an honor student.

General Honors (HP) Level Descriptions

- Student must have the ability to work independently and collaboratively.
- Reads and writes at or above grade level.
- Able to understand and interpret complex concepts and data.
- Is highly self-motivated and persistent.

It is highly recommended that you speak with your 7th grade teacher to determine if taking honors (HP) courses is the best fit. Ultimately, it is the decision of the parent/guardian and student based on your commitment to succeed for the entire school year. Please remember that your selections are for the entire school year. If you begin to struggle, moving out of honors is not guaranteed. If you make no selection we will automatically select the standard courses.

Students: Please circle one class for each subject area.
